What is the plan of compaign in connec; tion with the rebellion in the Kowloon hinterland? Are we to be content with the establishment of a military camp a Tuipo and to leave all the country outside the range of the guns exposed to the ravages of the enemy? If so the affir may drag from Hongkong with ringular board. on for months, with much loss of prestige to the Government and much suffering on the part of the peaceably-disposed inhabitants. There is no use blinking facts. There is a rebellion in progress-a contemptible little rebellion perhaps, but a rebellion nevertheless-or should we call it in invasion? and the Government must no thesitate to ! take such measures as may be necessary for its suppression. The territory is now British, and further appeals to the Chinese nuthorities would be out of order, even if their futility had not already been so completely exposed. The British Government is responsible for the restoration and maintenance of order in British territory, and the responsibility is one that cannot be shirked. Has General GASCOIONE, then, been given a free hand to clear the country, or is it a fact, as we have heard suggested, that he is restrained by the civil Government? There seems some reason to suppose that the latter suggestion is not unfounded, otherwise the General would almost certainly by this time have had another force out operating from the Usep Bay side, so as to shut in the enemy and compel his complete surrender or annihilation. To sit down at Taipoliu and wait for the effemy to disperse, or merely to clase him up and down the territory, giving him chances to dodge and double, would be a calamitous and disgraceful policy. General GASCOGNE should at once be entrused with definite orders to clear the country and be allowed to use an unhampered discretion in carrying out the orders.

His Excentency—I quite agree with hon, member as to the general principle, but as court, and to direct it to be tried by any other far as this Ordinance is concerned, hon members will see it is only a tentative Ordinance, Clause 14 provides for the punishment which because we really know nothing about the conmay be inflicted by any district or sub-district ditions of this now territory, and it is very court. It is given power to impose a fine not important to my mind that we should for at exceeding \$10, "and in case of a continued least twolve months make as little change as breach of any rule such court may impose a possible in the manner in which the people have further fine not exceeding ten dollars for each | been paying their taxes up to the present. day such breach is continued after notice to the twelve months we shall have had time to look offender.
